Discussion: Jeff Yelich would like permission to move the berm back to the original bank level that the contractor created to allow water to flow down the channel to protect his house and his neighbors. The board requires the berm to be removed since it was placed outside the scope of the permit application and it's higher than the original bank, approximately 100' on the NW portion of Yelich's land extending south to prevent flooding and allowing water to flow into flood channel, by 6/1/25 or subject to fines
